SUMMARY

Graduate electrical engineer with a strong interest in power, energy, and electrical infrastructure. Bridges practical field installation and design experience with data-driven asset performance monitoring. Equipped with a technical skill set including Python, MATLAB, SQL, and AutoCAD to solve complex engineering challenges.

EXPERIENCE

Intern, Plant Performance and Asset Management

July – Oct 2025

ACEN Corporation

Makati City

- Supported the Plant Performance Team in consolidating operational data from 23+ powerplant sites.
- Streamlined plant downtime data organization using advanced MS Excel automation methods, reducing manual overhead and minimizing entry errors.
- Engineered and presented daily performance dashboards for management by extracting data via Snowflake SQL and visualizing it with Excel Power Query and Tableau.
- Coordinated with several solar and wind plants on submission of RCA reports on issues for team analysis.
- Facilitated the successful handover of the Daily Asset Performance Report framework to the Data Management team, fully completing the transition within a 1-month timeline.

Project Engineer Intern

July – Aug 2024

IRAH Solutions and Service, Inc.

Quezon City

- Assisted in the design and physical installation of building Extra Low Voltage (ELV) systems using AutoCAD, ensuring accurate wiring compliant with standards.
- Resolved site equipment shortages by coordinating with the main office to expedite logistics, effectively preventing project downtime.

EDUCATION

Bachelor of Science in Electrical Engineering

Aug 2026

Pamantasan ng Lungsod ng Maynila

Intramuros, Manila

- Scholar: DOST-SEI Merit 2020
- Member: PLM Junior Institute of Electrical Engineers
- Member: PLM DOST Scholars Association

GWA: 1.73

LICENSES & CERTIFICATIONS

Registered Electrical Engineer, Professional Regulation Commission, 2026

Electrical Installation and Maintenance NCII, TESDA, Cert No. 2513*****3054, 2025

Photovoltaic System Installation NCII, eTESDA, 2025

Lean Six Sigma Yellow Belt, Council for Six Sigma Certification, 2025

SKILLS

Software:	Microsoft Office (Excel, Word, Powerpoint, Teams), Google Workspace (Drive, Docs, Sheets, Slides), Canva, PowerBI, PowerQuery, Snowflake
Eng'g Tools:	AutoCAD, ETAP, PSS/E, PowerWorld, DIALux evo, PVSyst
Programming:	Working knowledge of Python, MATLAB, and SQL; Basic knowledge of C/C++
Language:	Filipino (Native), English (Native/C2)

PROJECTS

Thesis: Anaerobic Digestion of Chlorophyta Biomass Co-digested with Livestock Manure: Harnessing Biogas for Methane-Derived Electrochemical Energy Conversion in Cabuyao, Laguna

Conducted small-scale exploratory project on an alternative renewable fuel source using a modified mixture of algae and cattle waste as biomass feedstock for methane gas production.

Excel-based 11-bus Symmetrical Fault Calculator

Developed a supplementary fault calculator for a group project for three-phase faults up to 11 configurable buses and transmission line parameters using Z-bus method, utilized as reference for correct calculations.
